

ART1000

Agricultural Rubber Track

**Minimum soil compaction,
to maximize your productivity**

**PREMIUM
TRACTION**

**SUPERIOR
FLOTATION**

**EXCELLENT WEAR
RESISTANCE**

The ART1000 is Trelleborg Tires' first Agriculture Rubber Track for high-horsepower machines designed to address modern agricultural challenges, enhancing productivity while minimizing soil compaction. Engineered for exceptional versatility and mobility of farm machinery, regardless of working conditions, ART1000 optimizes vehicle efficiency and performance, providing durability and extra strength. As a trusted partner in agriculture, we work closely with leading original equipment manufacturers to provide innovative solutions that support feeding the world.

ART1000

Agricultural Rubber Track

ART1000 track design, featuring advanced tread bars, minimizes soil compaction, helping to protect crop yield. The high self-cleaning capability results in increased traction and improved ride quality in demanding high-pull applications, maximizing overall performance and reducing operating costs.

1 Long lasting tread bar

Wear resistant tread bar compound combined with a unique design, provide premium handling and comfort

2 Strong carcass

Trelleborg's manufacturing process ensures more accurate control in the arrangement of track components, providing exceptional durability

3 Optimized guide lugs

Heat resistant compound and guide lugs geometry maximize the performance and efficiency of your tractor in demanding high-pull application
