May 10 to 12, 2022

Booth number 3815

Trelleborg Showcases Tough Tire Solutions at Waste Expo 2022

Trelleborg will exhibit its tire solutions for sustainable operations in waste management and construction industries at Waste Expo 2022. The annual event will be held at the Las Vegas Convention Center, Nevada, US, from May 10 to 12, 2022, and attracts innovators and visitors across a wide range of industries.

Marc Margossian, North and Central America Regional Marketing Director at Trelleborg Wheel Systems says: "Our tire experts will be on hand to discuss with visitors how Trelleborg tires are manufactured to handle the toughest terrains. The long-lasting, cut-resistant compounds in our tires provide premium performance for all types of applications. We are looking forward to welcoming visitors to our booth, and will have baristas serving everyone specialty coffee throughout the event."

Attendees to the Trelleborg booth will be able to see an eye-catching neon wheel loader fitted with tires from the EMR Range, made for critical construction applications, and Brawler HPS Soft Ride tires that ensure long-lasting durability and superior damage protection with its cut-resistant compound. Designed to perform in tough recycling and waste management applications, the HPS Soft Ride tires provide the most comfortable ride in the Trelleborg Brawler range.

Waste Expo Visitors can find Trelleborg experts at booth number 3815.
